

Let's Communicate the EUSBSR for the benefit of the region

THE BALTIC SEA REGION (BSR) A model region for clean shipping and a leading region in maritime safety and security. How can Norwegian actors get involved?

SEMINAR BASED ON THE EU STRATEGY FOR THE BALTIC SEA REGION (EUSBSR)

Date: Tuesday 6th February 2018
Time: 10:00–15:00 (registration and coffee from 09:30)
Place: The Norwegian Shipowners' Association, Rådhusgata 25, Oslo

Through this seminar we want to

- present the Baltic Sea Region (BSR) as an interesting region for development of new green solutions
- present and exchange best practise examples within shipping and maritime safety
- inform about and discuss how Norwegian actors can benefit from and contribute to policy work as well as in concrete projects within the framework of the EUSBSR
- facilitate contact between Norwegian maritime actors and representatives from the EUSBSR
- present updated information from the European Commission and the policy area representatives from the EUSBSR
- inform about financial options for project participation

KEY WORDS: Economic incentives and project support, cooperation possibilities, and access to knowledge and networks.

TARGET GROUP: Actors in Norway who work with or are interested in maritime policy with a special focus on clean shipping and maritime safety; association of maritime companies, shipowners, research and educational institutions, maritime authorities, marine insurance, etc.

PROGRAMME (as per 14.12.2017)
